As a result of the changes in organization at the school of medicine and affiliated hospitals, our spectacular program does not receive any funding from the government to support us. That's why the support of our alumni and friends of the department is more important than ever. Your financial support helps support resident education and research, ensuring a bright future. Please scan or click directly on this QR code and follow the link to donate directly to the WSU Dermatology Department.

Thank you to all our donors and the impact they have on the Department of Dermatology. Please click on [this link](#) to learn more about the profound change they have on our department!

Message from the Department Chair

Welcome Wayne State University Department of Dermatology Alumni to our Alumni Newsletter:

We will attempt to update you on the current state of the department. The Department of Dermatology has many endowed chairs and research funds thanks to the generosity of many of our alumni. The Pinkus Chair and Usdeck Chair Funds are both dedicated for recruitment of new faculty. In addition the Schoenfeld Dermatology Fund is a focused on providing on additional funds for resident education. As many have you know, we do not receive fundings from Medicare (CMS). Our residency program is funded through the VA, Wayne State University School of Medicine and through our outside institutions and our endowed funds. We now have three endowed lectureships in dermatology. The first endowed lectureship is the Aronson Lectureship in Dermatology which was endowed by the Hamzavi family. In addition, there is a new Horton Endowed Lectureship in Dermatology, of which the first endowed lecture will occur this fall. Please stayed tuned for a date. This endowed lectureship will focus on dermalogic surgery. There will be a new Hamzavi Family Endowed Lectureship which will occur in January. This will be focused on care to underserved populations and contact dermatitis. Finally, we have three research funds, including the Messenger Endowed Fund, the Kerwin Endowed Fund and Murakawa Endowed Fund. These are used for resident and staff research projects. Currently the money is being used to study next generation sequencing as a tool for diagnoses and guiding therapy of patients with cutaneous follicular lymphoma. His work is being done by Wayne State University medical students and Department of Dermatology residents in conjunction with researchers from the Karmanos Cancer Institute and the Department of Pathology.

The department remains stable and is slowly growing. Much of this could not be achieved without the generous support of our past residents and friends.

Sincerely,

Darius R. Mehregan, M.D.

Message from the Program Director

Message From the Program Director, Dr. Steve Daveluy MD, FAAD:

We are very excited to present the second edition of the newsletter of the Wayne State University Department of Dermatology. We hope this newsletter will allow us to keep our alumni, friends, and supporters updated on the great things going on in the department, as well as providing a way to spotlight accomplishments of our alumni and help us stay connected. If you missed the first edition of our newsletter, we're happy to share it again [here](#).

This time of year is always exciting, as we prepare to welcome a new class of budding dermatologists and bid a fond farewell to our graduating seniors as they enter the next stage in their careers and lives. In this edition of the newsletter, we are giving each senior a space to share their post-graduation plans. We will also be introducing faculty new to the department, specifically our newest team member at our Veterans Affairs clinic, Dr. Tina Pickett, and our new dermatopathologist working out of the Detroit Medical Center, Dr. Daniel Neill.

Since our last edition, our Wayne Health clinic in Dearborn relocated to a new home at 5250 Auto Club Drive suite 290A Dearborn, MI 48126. We have also added a Mohs Surgery Fellowship to our program, led by Dr. David Kouba, helping us train the next generation of skin cancer surgery experts.

Sincerely,

Steven Daveluy, M.D.

Department Updates

Dermatology Grand Rounds Schedule: July-August 2024

7/3/24:
Saroj Misra, DO

Associate Professor and Associate Dean, Clinical Education, AT Still University, Kirksville College of Osteopathic Medicine, Family Medicine Physician at Ascension Medical Group

Topic: The Professional Learner - Ensuring Excellence Throughout Your Career

8/21/2024:
John Durkin, MBA, FAAD

Residency Program Director, UNMH Medical Director, Assistant Professor, Department of Dermatology, University of New Mexico Health Sciences
Topic: TBD

You can now join us remotely for grand rounds over Zoom on Wednesday mornings. If you would like to be added to the grand rounds announcement email list, please contact our administrative assistant, Martha Barron: barronm@med.wayne.edu.

[John D. Dingell Detroit VA Medical Center](#): The VA started a new teledermatology rotation beginning July 2022. The rotation is supervised by Dr. Moossavi and allows the residents to gain experience reading store and forward teledermatology consults at the VA.

The department is going strong and still doing amazing work in dermatology. We are grateful for this opportunity to share some of our accomplishments and opportunities with alumni and friends of the Department of Dermatology at the Wayne State University School of Medicine.

For more information about our faculty, staff, and residents, please visit our website at dermatology.med.wayne.edu

We are happy to invite you to join us for our special lectures. We are grateful for the generous support that makes these lectures possible.

Inaugural Hamzavi Endowed Lecture

Date: January 22, 2025

Speaker: Michael Sheehan

Topic: Occupational Contact Dermatitis

Inaugural Horton Endowed Lecture

Speaker and Date TBD

This talk will focus on topics in dermatologic surgery

Annual Peter Aronson Memorial Lecture

Speaker and Date TBD

To receive the latest updates regarding our special lectures as well as our regularly scheduled grand rounds, please reach out to Martha Barron to receive our announcements (info to the left).

We serve a diverse patient population, allowing our residents to develop the skills to provide dermatological care across the full range of skin and hair types. It's an honor for our faculty to guide and support our residents in honing their skills, and our alumni deliver high quality care and have a positive impact on their patients and communities.

Department Updates

Current List of Endowed Funds and Lectureships

- Hermann Pinkus MD Endowed Chair in Dermatology
- Usndek Endowed Chair in Dermatology
- George Murakawa MD Endowment
- Messenger Endowment Fund in Dermatology Research
- Schoenfeld Dermatology Education Endowment Fund
- Kerwin Endowed Research Fund
- Aronson Endowed Lecture
- Horton Endowed lecture
- Hamzavi Endowed Lecture

As a result of the changes in organization at the school of medicine and affiliated hospitals, our spectacular program does not receive any funding from the government to support us. Meet our new faculty!

Dr. David Kouba

Dr. David Kouba will serve as our new Mohs fellowship program! A little introduction about Dr. Kouba:

Dr. David Kouba will be married to Dr. Allison Kouba for 3 years this upcoming August. They both enjoy traveling to distant lands, exploring new cultures, and creating unforgettable memories. Their shared passion for adventure has taken them to many fascinating places around the world.

In addition to his love of travel, Dr. David Kouba has a diverse range of hobbies that keeps him engaged and fulfilled. He enjoys beekeeping, woodturning and playing squash.

With six children ranging from ages 22-8 weeks old, their lives now revolve around their growing family. Their lives are delightfully busy and full of love.

Meet our new faculty!

Dr. Tina Pickett

Dr. Pickett is a board certified dermatologist with over 30 years' experience working in the metro Detroit area. She was the previous owner of Fosnaugh Skin and Hair Clinic in Southfield, MI and later Bingham Farms Dermatology in Bingham Farms, MI. Dr. Pickett has extensive experience treating a diverse background of patients.

Dr. Pickett attended private and Detroit Public Schools and was a member of the first graduating class of Renaissance High School located in Detroit, MI. She holds an undergraduate degree in Biological Sciences from Northwestern University, received her medical degree from Wayne State University School of Medicine, and interned at Henry Ford Hospital in Detroit, MI. She completed her dermatology residency at the University of Michigan in Ann Arbor, MI. Dr. Pickett has also received a certificate in Integrative Dermatology Studies and Plant-Based Nutrition.

She has past and present affiliations with the Michigan Dermatological Society, American Academy of Dermatology, National Medical Association and completed her tenure as a member at large on the Wayne State University School of Medicine Alumni Association Board of Governors in June 2024. She is also a consultant with the Detroit Clinical Research Center and an advisory consultant to the Human Assets Management Company, and the non-profit organization, "Each One Teach One".

Dr. Pickett provides medical, pediatric, integrative, utilization review and teledermatology services. She specializes in skin of color concerns, skin cancer screening and treatment, rashes, hair loss, acne, atopic dermatitis, psoriasis, mole removal, skin rejuvenation and scars.

Dr. Pickett contributes to her community via professional organizations such as Alpha Kappa Alpha Sorority Inc., Northwestern University's Detroit Alumni Club and NUBAA (Northwestern University Black Alumni Association) and Jack and Jill of America Inc.-Associates.

Dr. Daniel Neill

I attended medical school at the University of Mississippi in Jackson, Mississippi, my residency was here at Wayne State, in Detroit. From there I trained in dermatopathology at the University of California in Los Angeles under the extraordinary Dr. Scott Binder. I completed my training in surgical pathology at the University of Kansas in Kansas City, Kansas.

Working with Dr. Binder was the highpoint of my medical education. He taught me the approach I use in my diagnostics for skin disease. Outside of medicine, I love making beautiful and functional things and most of all, spending time with my amazing wife.

Departmental Research

Clinical research and scholarship are an important part of our residency program and department overall to fill gaps in our understanding dermatologic disease. We have many active clinical trials to provide the latest treatments especially highlighting the special skin of color population we care for. Residents have available funds from generous donations from alumni, the Hermann Pinkus Lecture Foundation, Wayne State Graduate Medical Education Seed Grant, and endowments that allow for resident scholarship. These would not be possible without your support. If you have potential research patients with severe hidradenitis suppurativa (HS) or any of the below diseases please reach out to us.

Dr. Steven Daveluy has undertaken cutting edge research in HS with an upcoming clinical trial for a new treatment and an investigator-initiated trial using battlefield acupuncture for control of pain in adults suffering from HS. He is also continuing trials on the use of cold water washing for seborrheic dermatitis, neem to treat rosacea, and others.

Dr. Geoffrey Potts is finishing up a clinical trial using Dupixent and studying benefits for atopic dermatitis patients with skin of color. An upcoming pharmaceutical-sponsored trial with a PO JAK inhibitor for vitiligo is coming Summer 2024.

Dr. Aliya Hines is continuing outcomes research on teledermatology cases across the VA especially prevalence of skin cancer in teledermatology cases and outcomes for those patients and follow up.

Dr. Meena Moossavi is working with Dr. Steven Daveluy on an upcoming NATIENS research project involving SJS/TEN at Detroit Receiving Hospital. The Detroit VA is also an alternate site for a nation-wide VA clinical trial for the chemoprevention of BCC.

All of our faculty have set aside additional time over their clinical duties to go above and beyond for research and scholarship with many important publications reviewing clinical questions we see in dermatology and especially skin of color. Special focus is on hidradenitis suppurativa for Dr. Daveluy, hyperhidrosis, alopecia, and supplements for Dr. Potts, care for veterans and quality improvement for Dr. Meena Moossavi, Dr. Hines on teledermatology and VA care, and Darius Mehregan on expertise in dermatopathology.

Residents Corner

Congratulations to our two new chiefs for the 2024-2025 year, Hailey Olds and Reem Kashlan!

Another successful AAD in the books. Thanks San Diego for a great time!

Residents Corner

Real World Dermatology

We had a great time at the Real World Derm Conference in Las Vegas, Nevada. Thanks to our wonderful Program Director for giving a great talk!

AAD Ambassadors Program

Allene Fonseca, PGY-4, meeting fellow AAD Resident Ambassadors in person at the AAD Annual Meeting in San Diego. Wayne State was 1 of 10 dermatology residency programs from around the country selected to be part of this pilot program.

Residents Corner

Some wellness events and holiday celebrations from the 2023-24 year!

Residents Corner

Post-Graduate Plans for the Class of 2024

From left to right, Audrey Fotouhi, Dilara Turk, Nastassja Bedford-Lyon, Starling Tolliver

Audrey Fotouhi will be joining the University of Chicago Section of Dermatology as an Assistant Professor in August 2024. She will have a subspecialty clinic focused on women's health and vulvar dermatology. She will be seeing patients at the Hyde Park and River East clinics.

Dilara Turk will be joining Hamzavi Dermatology in September 2024. She will be providing comprehensive medical, cosmetic and surgical dermatologic care at the Canton and Livonia offices.

Nastassja Bedford-Lyon will be joining Hamzavi Dermatology in September 2024. She will be providing comprehensive medical, cosmetic and surgical dermatologic care.

Starling Tolliver will be joining Yale University Department of Dermatology as Assistant Professor and Director of DEI Pathway Pipeline Development in September 2024. She will have specialty clinics focused on skin of color and hair loss. She will be seeing patients at the New Haven and Branford clinics.

Alumni Spotlight

Mehdi Farshchian MD, PhD, FAAD Year of graduation: 2022

Dr. Farshchian completed his dermatology residency at Wayne State University in 2022. Before starting his residency, he spent several years in experimental and clinical dermatology research as a PhD student at the University of Turku in Finland. Later, he worked as a postdoctoral research fellow under the mentorship of the late Professor Jouni Uitto, a world-renowned scientist and dermatologist, at Thomas Jefferson University in Philadelphia, where he lived for two years after moving to the United States.

During his residency, Dr. Farshchian pursued his research interests and published numerous articles in top peer-reviewed journals in collaboration with Wayne State Dermatology faculty. His deep involvement in research during residency was recognized with several awards, including the Honorable Resident Research Award from the Michigan Dermatological Society, the Peter Svider Memorial Resident Scholarship Award, and the First Annual Amir Mehregan Memorial Resident Research Award (shown in the photo with Department Chair Dr. Daruis Mehregan).

After graduation and board certification in dermatology, Dr. Farshchian joined the University of California, Los Angeles (UCLA). He currently serves as an assistant professor and the director of Contact Dermatitis at UCLA Dermatology. He enjoys practicing and teaching at such an outstanding academic center. Recently, he was honored with the Teacher of the Year Award by UCLA dermatology residents for his dedication and passion for teaching. Dr. Farshchian is happy to call Los Angeles home, where he enjoys a vibrant Persian community and a variety of Persian cuisines.

We want to share your story!

We know our alumni are doing amazing things across Michigan, the country, and the world. We would love to highlight your story. If you're interested, please contact our administrative assistant, Martha Barron: barronm@med.wayne.edu.

Justice Equity Diversity Inclusion (JEDI)

2023-24 YEAR IN REVIEW:

- Multiple posters, abstracts, presentations, and publications
- Attended the Meeting the Challenge Summit: Population Descriptors in Dermatology Research Studies held by the Skin of Color Society Diversity in Dermatology Clinical Trials Task Force
- Dr. Aliya Hines was the keynote speaker at Dermatology Day at Washtenaw Community College aimed to high school students
- Volunteered at >5 underserved high schools, teaching about dermatology as it relates to skin of color and a career in medicine
- Volunteered at the 12th Annual MLK Community Health Fair at Chandler Park Academy School District
- Under-Represented in MediAlumni Spotlightcine (URIM) high school students reached with the skin of color curriculum, multiple virtual high school DEI discussions
- Journal club and panel participation with URIM medical student organizations
- Monthly department Chair free clinic meetings for URIM applicants
- Developed multiple outreach parameters such as our diversity meet and greet, ambassador program, and conference outreach
- Co-development of health disparities curriculum
- Partnership with Wayne State free clinic and Street Medicine program
- Personal statement workshops and mock interviews for 4th year URIM medical students
- Developed a holistic recruitment and interview guide shared with all WSU residency programs
- Continue leading the position of the Diversity, Equity and Inclusion committee within the GME Resident Council
- Initiated the AAD Underrepresented in Medicine Work Group

Thank you to Dr. Hines, Dr. Daveluy, Starling, Allene, Reem, and Niloo, our JEDI team, for all of their hard work this year!

JEDI Outreach

Allene Fonseca, PGY4, was 1 of 8 dermatology residents in the U.S.A. to be awarded the 2023 Diversity in Dermatology Clinical Trials Task Force Travel Grant to attend the Skin of Color Society Meeting the Challenge Summit: Population Descriptors in Dermatology Research Studies in Washington, DC.

Allene, Starling, and WSU medical students, volunteering at the 12th Annual MLK Community Health Fair for the Chandler Park Academy School District.

Community Outreach

Dermatology Interest Group (DIG)

Dermatology Interest Group is an organization at the Wayne State University School of Medicine consisting of students interested in learning more about the field of dermatology. Students have the unique opportunity to work closely with WSU Dermatology residents and faculty in a wide array of settings. Opportunities for involvement include strengthening clinical skills at the University Health Center dermatology clinic, participating in journal club, offering resources for mentorship, working with other organizations to provide dermatology centered care in student run clinics, and volunteering at events such as the Michigan Dermatological Society meetings. Whether we are working at the clinic or serving the local community, we are always excited to learn from each other and grow in our knowledge of all things dermatology!

If you are interested in becoming involved or have any ideas/questions, please feel free to reach out to Nicole Flores (nicoleflores@wayne.edu) or Caitlin Ann-Benitez (cbenitez@wayne.edu).

2023 Men's Health Event screening patients at Ford Field with our awesome team of medical students. We even got to play games on the field after!
