

SEMCME spring 2022 research symposia

Submission instructions: QIPS Summit, Research Forum

(1) The **7th Annual Michigan Summit on Quality Improvement & Patient Safety (QIPS)** will be held on Wednesday, **May 18, 2022**, from 8:00 am - 12:30 pm via Zoom. There will be two types of presentations: (1) voiceover PowerPoint presentations utilizing the YouTube platform and (2) livestream slide presentations delivered via Zoom on the day of the event.

Abstracts for the QIPS Summit are submitted directly to SEMCME. The deadline is Friday, April 1, 2022. Questions may be directed to Nadia Juzych at njuzych@med.wayne.edu.

(2) The **44th Annual SEMCME Research Forum** will be held on Wednesday, **May 25, 2022** from 8:00 am - 12:30 pm via Zoom. **Rather than submitting materials directly to SEMCME, residents should **first** send an abstract as a Word document to GME, who will make a selection of **three** abstracts for the prerecorded voiceover PPTs and **one** abstract for the livestream slide presentations. GME will inform those residents whose abstracts were selected in sufficient time for them to prepare either type of presentation. Residents will then submit all required documents and link or PPTs to SEMCME by their deadline of Friday, May 13, 2022.

Abstracts for the Research Forum should be sent to hkenaga@med.wayne.edu by Monday, April 11, 2022

Abstract requirements: 1 page, double-spaced, including all text, graphs and charts, using a minimum 10-point type size and 1-inch margins. Title should appear at the top, in all caps, bold type. Underline the name of the presenter, and include all co-authors and their affiliations. List sponsoring faculty last with an asterisk after their names. Use the typical Introduction/Methods & Design/Results/Discussion & Conclusion structure for the body of the abstract. **Indicate whether the abstract is being submitted for the voiceover PPT or the livestream slide presentation.**
